Job Title: Intern Manual QA Engineer

Company Name: IDT Corporation

Share

IDT Belarus is offering a **full-time, PAID internship for junior manual QA engineers, both web and mobile!**

We're here to enhance your practical skills and prepare you for a successful career in an international environment. You will have the opportunity to work with a project that allows International Calling, Mobile Top-up, and Money Transfer worldwide.

Submit your CV and motivation letter to apply for this opportunity and become part of our global product team! The internship program will start on February 17, 2025.

Apply if you have:

- Knowledge of QA basics.
- Completed QA manual courses.
- Good level of English – B1 or higher.
- Analytical thinking, proactivity, and willingness to learn.

To join us, you should have an idea of:

- What types of testing exist and how to use them
- How to write test documentation.
- What is a Defect Lifecycle
- Knowledge of mobile app testing.
- Knowledge of API testing would be a bonus.

We offer you:

- A 3-month paid full-time internship (8 hours per day).
- Instructional lectures and mentorship from our leading engineers.
- Opportunity to enhance your skills through real international projects.
- A chance to kickstart your career in a diverse global environment.

A motivation letter is a must!

Please, mention the position you are applying (for eg. Mobile QA) and include information about the related experience.

The selected candidates will receive invitations via email for a call with a recruiter.

If we cannot move forward with your application, you will receive an email notification after January 25.
