Job Title: Quality Assurance Engineer

Company Name: Time Doctor

Share   

About the job

About the Role:

The QA role is critical in ensuring the delivery of high-quality, reliable software that meets user expectations and business requirements. We are hiring QA Engineer to strengthen our team, maintain high standards, and ensure smooth, error-free product releases in an increasingly competitive market.

Your Responsibilities:

- **Test Case Design and Execution:** Develop comprehensive test cases based on functional and technical specifications, ensuring full coverage of application requirements and features.
- **Defect Identification and Reporting:** Accurately identify, document, and report software defects in a clear and concise manner, working closely with developers to resolve issues promptly.
- **Regression Testing:** Perform thorough regression testing to ensure that new code changes do not adversely impact existing functionalities.
- **Cross-Browser and Platform Testing:** Conduct rigorous testing across multiple browsers, operating systems, and devices to ensure a consistent user experience.
- **Performance Testing (Basic):** Execute basic performance tests to identify bottlenecks and ensure the application meets performance benchmarks.
- **Documentation:** Maintain detailed test plans, reports, and related documentation to ensure traceability and support ongoing quality assurance efforts.

Skills & Experience:

- **Strong Attention to Detail:** A meticulous approach to identifying even the smallest inconsistencies or issues, ensuring product quality and reliability.
- **Root Cause Analysis Expertise:** Proficient in analyzing complex problems to uncover their underlying causes, enabling effective solutions and process improvements.

basic automation frameworks like Playwright to optimize testing workflows.

- **Bug Tracking and Reporting:** Adept at documenting bugs with clarity and precision, leveraging tools like JIRA to ensure efficient tracking, prioritization, and resolution.
- **Effective Communication Skills:** Strong verbal and written communication abilities to collaborate with cross-functional teams and articulate technical details to stakeholders.

This full-time, 100% remote position provides the flexibility to work anywhere. Time Doctor is an equal opportunity employer and values diversity within our company. We do not discriminate based on race, religion, color, national origin, gender, sexual orientation, age, marital status, veteran status, or disability status.

About Us

Our vision is to be the most trusted time-tracking and productivity application for remote teams. We help companies and employees do their best work. We are looking for people passionate about spreading the practice of remote work with all of the benefits that come with it. We believe that office life is antiquated, that geography should not limit your career prospects, and that people should be able to work from wherever they want.

We're a diverse global team of over 150 people working 100% remotely in over 40 different countries. We're looking for innovative team members ready to help us modernize remote work.
