 Hiring Mid-Level SQA Engineer

Location: Bangladesh

 Responsibilities:

- Develop and execute test plans, cases, and checklists for functional, performance, security, usability, regression, and compatibility testing.
- Design, maintain, and integrate automated test scripts and CI/CD pipelines using tools like Selenium, JUnit, and TestNG.
- Conduct API and database testing, ensuring data integrity, client-server compliance, and backend consistency.
- Identify, document, and resolve defects, perform root cause analysis, and collaborate with developers for debugging.
- Monitor quality metrics, prepare detailed reports, and provide daily updates on progress and results.
- Collaborate with teams to align QA with Agile practices, improve processes, and ensure UI/UX consistency.
- Perform security testing, ensure compliance with standards like GDPR and ISO, and identify vulnerabilities.
- Mentor junior QA members, share best practices, and maintain QA documentation.

- Bachelor's degree in CSE, relevant technical field, or equivalent practical experience.
- Strong understanding of software testing methodologies, tools, and best practices.
- Familiarity with performance testing tools like JMeter or LoadRunner is a plus.
- Excellent analytical and problem-solving skills with meticulous attention to detail.
- Experience in testing mobile apps, web applications, and managing large regression test suites.
- Hands-on experience with REST API testing, debugging logs, and resolving API test failures.
- Knowledge of SDLC, Agile/Scrum methodologies, and version control tools like Git.
- Proficiency in at least one programming language (Python, Java, JavaScript, PHP).
- ISTQB certification or similar QA certification is a strong advantage.

#### Why Join Us:

- Collaborate with global leaders in multiple sectors.
- Thrive in a flexible and friendly work culture.
- Explore ample learning and upskilling opportunities.
- Receive a competitive salary with training budgets, festival bonuses.

 Application Deadline: 31 March 2025

#### How to Apply:

Please send your updated CV to [hr@infinitibit.com](mailto:hr@infinitibit.com) with the subject: 'Applying for SQA Engineer – Expecting (xk) BDT – (x) years of Experience - Notice period (x) days'
