Company Name: Workspace Infotech Limited

Share   

Job Context:

About Workspace Infotech Limited

Workspace Infotech Limited is a leading software development company headquartered in Dhaka, Bangladesh, with a strong global presence. We specialize in delivering innovative and scalable solutions for clients worldwide. At Workspace, we believe in fostering creativity, collaboration, and excellence to drive business transformation. To strengthen our quality assurance practices and ensure exceptional product delivery, we are seeking a QA Engineer to join our talented team.

Why Join Workspace Infotech Limited?

Competitive Compensation: Attractive salary with performance-based bonuses.

Work Environment: Collaborative and inclusive workspace promoting work-life balance.

Professional Development: Access to training, certifications, and mentorship programs.

Job Responsibilities:

As a QA Engineer at Workspace Infotech Limited, you will:

1. Test Planning & Execution:

- Develop comprehensive test plans, test cases, and test scripts based on product requirements.
- Conduct manual and automated testing for web, mobile, and software applications.

2. Defect Management:

- Identify, document, and track bugs using bug tracking tools like JIRA.
- Collaborate with developers to resolve issues and ensure timely fixes.

3. Automation & Tool Utilization:

- Develop and maintain automation frameworks using tools like Selenium, Appium, or similar platforms.
- Integrate automated test scripts into CI/CD pipelines for seamless testing processes.

4. Collaboration with stakeholders:

5. Quality Assurance Processes:

- Ensure all software aligns with functional, security, and performance requirements.
- Monitor and report on testing progress, including risk assessments.

6. Collaboration:

- Work closely with development, product, and UI/UX teams to meet project deadlines.
- Advocate for quality throughout the software development lifecycle (SDLC).

Skill Requirements:

- Proficiency with tools like Selenium, JIRA, Postman, and TestRail.
- Familiarity with scripting languages such as Python, Java, or C#.
- Knowledge of SQL and database testing.

Experience Requirements:

- Experience with performance testing tools like JMeter or LoadRunner.
- Familiarity with CI/CD tools (e.g., Jenkins, CircleCI).
- Knowledge of Agile/Scrum methodologies.
- ISTQB or similar certification is a plus.

Additional Requirements:

- Strong analytical and problem-solving abilities.
- Excellent verbal and written communication skills.
- Ability to work in a collaborative and fast-paced environment.

Compensation & Other Benefits:

- Flexible work hours and leave policies.
- Yearly team-building retreats and recognition programs.
- Subsidiary lunch is provided by the office.
- Snacks and coffee.

Deadline: 30th January, 2025.
