Job Title: Software Development Engineer in Test

Company Name: Informatica

Share

We're looking for a diverse group of collaborators who believe data has the power to improve society. Adventurous minds who value solving some of the world's most challenging problems. Here, employees are encouraged to push their boldest ideas forward, united by a passion to create a world where data improves the quality of life for people and businesses everywhere.

Your Role Responsibilities? Here's What You'll Do

- Design, develop, and test software applications to meet business requirements.
- Collaborate with cross-functional teams to identify and prioritize project requirements.
- Develop and maintain technical documentation to support software development.
- Troubleshoot and resolve software issues to ensure high-quality deliverables.
- Participate in code reviews to ensure adherence to coding standards and best practices.

Role Essentials

- 5+ years of experience in software development with proficiency in programming languages such as Java, Python, or C++.
- Strong understanding of data structures, algorithms, and software design patterns.
- Experience with Agile development methodologies and version control systems such as Git.
- Knowledge of cloud-based technologies such as AWS or Azure.
- Familiarity with containerization using Docker.

Perks & Benefits

- Comprehensive health, vision, and wellness benefits (Paid parental leave, adoption benefits, life insurance, disability insurance and 401k plan or international pension/retirement plans)
- Flexible time-off policy and hybrid working practices
- Equity opportunities and an employee stock purchase program (ESPP)
- Comprehensive Mental Health and Employee Assistance Program (EAP) benefit

We're guided by our DATA values and we are passionate about building and delivering solutions that accelerate data innovations. At Informatica, we know [diversity](#) drives innovation. We are proud to be an Equal Opportunity Employer dedicated to maintaining a work environment free from discrimination, one where all employees are treated with dignity.

across any multi-cloud, hybrid system, democratizing data to advance business strategies. Customers in approximately 100 countries and more than 80 of the Fortune 100 rely on Informatica. www.informatica.com. Connect with [LinkedIn](#), [X](#), and [Facebook](#). Informatica. Where data and AI come to life.™
