Job Title: Senior QA Engineer

Company Name: Cynosure Corporate Solutions

Share

Job Description

Job Overview:

We are seeking an experienced Senior QA Engineer in Chennai, Bangalore, Hyderabad

The ideal candidate will bring over 5 years of expertise in the Software Testing Life Cycle (STLC) and possess a proven track record of testing e-commerce websites and mobile applications.

A background in the telecom domain is essential, and experience with migration projects is highly desirable.

Key Responsibilities:

- Act as an independent contributor leading the QA process, managing both automation and manual testing tasks to ensure high-quality deliverables.
- Analyse requirements and write detailed user stories.
- Lead daily stand-ups, define process flows, and manage reporting using JIRA and MS Excel to track progress, identify gaps, and provide actionable insights.
- Coordinate and manage stakeholders across modules to ensure seamless delivery, track progress, and achieve on-time project completion with strict adherence to quality standards.
- Automate test cases for websites and mobile apps using Selenium and Appium.
- Perform API testing using tools like Postman or RestAssured, validating request/response formats and ensuring data integrity.
- Conduct database testing, including creating and executing SQL queries to verify data consistency and accuracy.

- 5+ years of experience leading the Software Testing Life Cycle (STLC) and delivery practices.
- Expertise in testing e-commerce applications with a mobile-first approach, including mobile apps, with a strong focus on UI/UX quality and detail.
- Proficiency in automation testing tools: Selenium (Java) and Appium.
- Strong skills in analysing requirements and drafting user stories.
- Hands-on experience with CI/CD tools like Jenkins, GitLab, or Azure DevOps.
- Solid understanding of producing reports using JIRA & MS Excel.
