Job Title: Quality Assurance Engineer

Company Name: Genetec

Share

Description

Test Automation | API | Manual Testing | Test Case Management

At Genetec we want to knock our customer's socks off with innovative strategies and software technologies that will keep their security environment robust and resilient. As a global leader in video surveillance software the drive to go beyond expectations has been key to the Genetec experience since day one. Want to know how it is like to work for us? Check out our [Kununu](#) profile!

For our latest product, an innovative cloud-based work management solution, we are looking for game-changers, big thinkers and doers who are ready to join our journey as **Quality Assurance Engineer (all genders)**. We are a passionate and entrepreneurial group of software enthusiasts, aiming to revolutionize work and resource management. Our new solution is taking us beyond Genetec's core market, deeper into our customer operations. We have been working closely with trusted development customers and did a general market release only recently.

What your day will look like

We invite you to apply even if you happen to not meet every requirement. We provide training and support to help you reach your full potential within this role

- Be an integrated part of an **agile** software development team
- Design and execute **manual and automation** test cases for **web and mobile apps**
- Analyze and identify presence of any issue or defect in system and assist developers in the validation and resolving of issues and defects
- Perform functional, regression and exploratory testing
- **Proactively** raise potential issues and problems and bring them to the attention of the team
- Participate and contribute in feature plannings

About you

- **Experience.** You have proven experience in the field of software quality assurance in an agile environment.
- **Problem Solving.** You are an out-of-the-box thinker with strong analytical, diagnostic and problem-solving skills.
- **Manual Testing.** You have good understanding of QA processes, you are familiar with test case management tools, **API** testing tools and have basic **SQL** knowledge.

for detail.

- **Excellent Communications.** You are fluent in **English**, and you can clearly communicate any issues, and give status reports.
- **Self-drive.** You are an independent, fast learning self-starter who wants to be part of a flourishing, curious and innovative organization. You are an energetic, passionate and driven team player.
- **Growth-oriented.** You're self-aware and proactively seek feedback. You see every day as an opportunity to improve. Yourself, your team and the organization.

What you will love about the job

- **Working with exceptional people** in a fast-moving environment
- **Being creative and challenging the status quo** by sharing new ideas is a huge part of who we are
- The **ability to make a difference** in an international and **diverse workplace**
- Be part of the **latest trends** and work with **state-of-the-art technologies**
- Work in an industry leading **global company** with **flat hierarchy** and **open-door policy**
- Collaborate with a team that is passionate about **making a positive difference in the world** through Genetec's vision of 'protecting the everyday'

What's in for you

- Plenty of opportunities for you to learn new skills and grow in your career
- Flexible working hours incl. work-from-home option and additional vacation days
- Employee Performance Bonus Plan
- Subsidised lunch vouchers or public transport tickets (up to you to choose)
- Newly opened office, near the metro station in a campus-style environment
- French classes and get-togethers to improve your German, if needed
- International Team Events and Conferences

The salary range for this position is above the collective agreement and, depending on training, qualifications and professional experience, starts from EUR 50 000,-- gross annually.

Genetec is an **equal-opportunity employer**. 4.5/5 agreed in an Internal Engagement Survey "People of all age, gender identity, race, sexual orientation, physical or mental ability, ethnicity, and perspective are valued here."
