Job Title: QA Automation Engineer (Athens/Remote)

Company Name: EUROPEAN DYNAMICS

Share

Description

Are you a **QA Automation Engineer** seeking an opportunity to join a dynamic team? Join us in Athens or work remotely, and become part of our expanding development team working on innovative projects.

What You'll Do:

- Design and develop automation testing frameworks for software applications, in the field of enterprise content management and e-government;
- Create test plans;
- Develop automated tests using Selenium and Java;
- Analyze, design, and construct test data for automated testing of software developments;
- Learn new automation tools and scripting languages;
- Evaluate emerging technologies.

Requirements

Must-Have Qualifications:

- University degree in IT;
- Strong analytical skills, team- and quality-oriented, keen to learn and excel;
- Thorough knowledge of Java;
- Understanding HTML, CSS;
- Fluency in verbal and written English.

Nice-to-Have Qualifications:

- Working experience with Selenium Webdriver, TestNG/JUnit, Maven, Git;
- Knowledge of SQL;
- Knowledge of scripting languages like VBScript;
- Knowledge and experience with Product management tools like Bugzilla, Jira, etc;
- Knowledge and experience in CI and CD.

Benefits

We believe in rewarding talent and dedication. Here's what you can expect as part of our team:

- Competitive full-time salary;

- Professional Development: Benefit from language courses, specialized training, and continuous learning opportunities;
- Career Growth: Work with some of the most innovative and exciting specialists in the industry;
- Dynamic Work Environment: Thrive in a setting that offers challenging goals, autonomy, and mentoring, fostering both personal and company growth.

If you want an exciting challenge, work with some of the coolest technologies, and enjoy your time doing it, then join us! Submit your detailed CV in English, quoting reference: (QAAE/01/25).

You may also consider all our other open vacancies by visiting the career section of our website (www.eurodyn.com) and follow us on Twitter (@EURODYN_Careers) and LinkedIn.

EUROPEAN DYNAMICS (ED) (www.eurodyn.com) is a leading European Software, Information, and Communication Technologies company, operating internationally (Athens, Brussels, Luxembourg, Copenhagen, Berlin, Stockholm, London, Nicosia, Valetta, Vienna, Den Haag, Hong Kong, etc.) The company employs over 1100 engineers, IT experts, and consultants (around 3% PhD, 41% MSc, and 54% BSc). We design and develop software applications using integrated, state-of-the-art technology. Our current IT projects have a value exceeding 300 million EURO. EUROPEAN DYNAMICS is a renowned supplier of IT services to European Union Institutions, international organizations, European Agencies, and national government Administrations in 40 countries and 4 continents.

As part of our dedication to the diversity of our workforce, we are committed to Equal Employment Opportunity without regard for race, color, national origin, ethnicity, gender, disability, sexual orientation, gender identity, or religion.
