Here's few question:

1. How do you write effective test cases?
2. What is the Software Testing Life Cycle (STLC)?
3. What is the difference between functional and non-functional testing?
4. What is the difference between black-box testing and white-box testing?
5. What is a test case, and what are its components?
6. How do you prioritize your testing tasks?
7. How do you handle incomplete or unclear requirements during testing?
8. What automated testing tools have you used?
9. What is exploratory testing, and when would you use it?
10. What are some common challenges you face in software testing, and how do you overcome them?
