## QA Interview Questions For Freshers

 Wasif Zaman  02 Dec 2024  0  488  1

Share

Here are some commonly asked QA interview questions for freshers:

### QA Concept:

1. What is the difference between Quality Assurance(QA) and Quality Control(QC)?
2. Explain software testing and its importance.
3. What are the different levels of testing?
4. Explain the Software Development Life Cycle (SDLC).
5. What is the role of a QA in Agile methodology?

### Testing Types:

1. Differentiate between functional and non-functional testing.
2. What is the purpose of regression testing?
3. What is smoke testing, and how is it different from sanity testing?
4. Explain the difference between manual and automated testing.
5. What is usability testing, and why is it important?

### Testing Techniques:

4. How do you prioritize test cases?
5. What are test scenarios and test cases?

**Bug Life Cycle:**

1. What are the steps in the bug life cycle?
2. How do you document and report a defect?
3. What are the differences between severity and priority in defects?

**Tools and Technologies:**

1. Have you worked with any bug-tracking tools?
2. What are the popular automation tools used in testing?
3. Explain what a test management tool is.

**Behavioral Questions:**

1. How do you handle missed defects in a release?
2. Describe a situation where you had to collaborate with developers.
3. How do you ensure your testing covers all requirements?

I have shared some questions. If you want to add more, please comment below.
