Company Name: Dynamic Solution Innovators (DSi)

Share   

Dynamic Solution Innovators (DSi), a software company based in Dhaka, Bangladesh, has been successfully providing software services since 2001 in the global industry (USA, England, New Zealand, Asia and Africa). We have 280+ employees, with over 250+ skilled Software Engineers & SQA engineers. We continuously invest in hiring, developing, and retaining the best-in-class talents to leverage the latest technologies and offer the most advanced next-gen solutions to our clients. Some of our major projects and products include Nationwide Primary & Secondary Education ERP solutions for the Bangladesh Government, Higher Education Management System running in 400+ US universities, Banking Compliance System running in 200+ financial institutions in the USA, 2021 BASIS National ICT Award-winning ERP solution for container cargo management of private container yards. At DSi, we work to build state-of-the-art generation products with the industry's most talented resources.

Currently, we are looking for a few passionate **Software Quality Assurance Engineer** who can join our team.

Responsibilities

- Liaise with offshore teams (e.g. developers and business analysts) to identify system requirements.
- Review requirements, specifications, and technical design documents to provide timely and meaningful feedback.
- Create detailed, comprehensive, and well-structured test plans and test cases.
- Execute test cases (manual or automated) and analyze results.
- Report any coding bugs or QA-related issues as they arise.
- Monitor debugging process results.
- Conduct post-release/post-implementation testing.
- Work with cross-functional teams to ensure quality throughout the software development lifecycle.

Requirements

- Very good attention to detail.
- Experience in writing clear, concise, and comprehensive test plans and test cases.
- Strong knowledge of software QA methodologies, tools, and processes.
- Working knowledge of test management software.
- Analytical mind and problem-solving aptitude.
- Excellent communication and organizational skills.

Good to have but not mandatory:

- Experience with functional automation tools such as Selenium, Cypress, Playwright etc.
- Experience with Test Automation using jMeter, PostMan, etc.

Experience

- 3-5 Years in relevant field

Educational Requirements:

- [B.Sc.](#) in Computer Science or relevant degree.

Benefits

- Dynamic and modern work environment
- Attractive salary
- In-campus free lunch, snacks
- Two festival bonuses
- Yearly increments
- Healthcare coverage
- Company-paid training, courses, and certification
