About HireRight

HireRight is the premier global background screening and workforce solutions provider. We bring clarity and confidence to vetting and hiring decisions through integrated, tailored solutions, driving a higher standard of accuracy in everything we do. Combining in-house talent, personalized services, and proprietary technology, we ensure the best candidate experience possible. PBSA accredited and based in Nashville, TN, we offer expertise from our regional centers across 200 countries and territories in The Americas, Europe, Asia, and the Middle East. Our commitment to get it right every time, everywhere, makes us the trusted partner of businesses and organizations worldwide.

Responsibilities

- 3-6 years of relevant QA technical experience preferably with a product company
- Perform thorough testing of websites developed using Next.js and other frameworks ensuring compatibility across various browsers, devices, and platforms.
- Conduct regular regression testing to ensure that new features and updates do not introduce issues or conflicts with existing functionality.
- Evaluate website load times, responsiveness, and overall performance, making recommendations for improvements when necessary.
- Develop, publish, execute, and maintain manual/automation test cases
- Maintain detailed test documentation in JIRA / Confluence
- Determine and design testing approaches
- Collaborate closely with developers, designers, and project managers to resolve issues.
- Knowledge of GIT and POSTMAN is required.

Qualifications

- Bachelor's degree in computer science, Software Engineering, or a related field.
- Proven experience as a QA Engineer with a focus on website and mobile app testing.
- Strong knowledge of testing methodologies, tools, and best practices for web and mobile applications.
- Familiarity with website testing tools, browser developer tools, and browser compatibility testing.
- Experience with test automation using tools like Selenium or Cypress is a plus.
- Proficiency in using mobile testing frameworks and tools such as Appium or XCUITest is a plus.
- Familiarity with bug tracking tools like Jira, Azure DevOps, or similar.
- Strong analytical and problem-solving skills with keen attention to detail.
- Excellent communication and teamwork abilities.
- Ability to adapt and work effectively in an agile and fast-paced development environment.
