Job Title: QA Analyst

Company Name: Zipdev

Share

Description

Zipdev is looking for a QA Analyst. Tickets are moved through our development teams to QA where they're manually tested, test cases are created and evaluated for automation by the QA Automation team. QA Analysts will be present throughout the process from advising on possible acceptance criteria for user stories to coming up with and writing test cases in our Test Management software for new features.

Primary Responsibilities:

1. Testing and Validation:

- Design, develop, and execute comprehensive test plans, test cases, and test scripts for new and existing software features.
- Perform manual and automated testing to ensure functionality, usability, and performance.

2. Bug Identification and Reporting:

- Identify, document, and track defects clearly and concisely using bug-tracking tools.
- Work with the development team to reproduce and resolve issues.

3. Collaboration and Communication:

- Collaborate with product managers and developers to understand requirements and acceptance criteria.

4. Quality Assurance Processes:

- Contribute to the development and improvement of QA processes and best practices.
- Ensure adherence to quality standards and maintain thorough documentation of testing activities.

5. Regression and Performance Testing:

- Conduct regression testing on resolved defects and ensure no new issues are introduced.

Requirements

- 2+ years of experience in software quality assurance or a related role.
- Familiarity with testing web, mobile, and desktop applications.
- Strong understanding of software testing methodologies, tools, and processes.
- Experience with bug-tracking tools (e.g., JIRA, Bugzilla) and test management tools.
- Basic knowledge of SQL, scripting languages, or test automation tools is a plus.
- Excellent analytical and problem-solving skills.
- Detail-oriented with a commitment to delivering high-quality work.
- Effective communicator with the ability to work collaboratively in a small team environment.

Our Recruitment Process

- 15-minute Initial Call
- 20-minute take-home skills test
- 30-minute Call with the Recruiter (project, benefits, etc.)
- Interviews directly with the client (depending on the project the # of interviews may vary, this may include a code assessment)

Final Offer!

Benefits

- Work Remote Monday - Friday, 40 hours a week (no weekends)
- Vacation: 10 business days a year
- Holidays: 5 National Holidays a year
- Company Holidays: 5 Company Holidays a year (Christmas Eve, Christmas Day, New Years Eve, New Years Day, Zipdev Day)
