### Job Title: Software Quality Assurance Engineer

Company Name: Amazon

Share

#### DESCRIPTION

Amazon india is an inventive research and development company that designs and engineers high-profile devices like Echo, FireTV, tablets, e-readers, which have changed the daily lives of millions of users. Most advanced products need cutting-edge testing to ensure they reach the customers with the best quality. This is the mission of every Software QA engineer at Amazon Lab126/India.

At Amazon, we not only test the products, we treat the testing activities on par with design and invention of a system. We use state-of-the-art technologies and methodologies to ensure the most efficient and most comprehensive testing. Invention of new test methodologies and innovation is the essence of testing in our team. Work hard. Have fun. Make history.

#### Role Requirements:

You are expected to have industry-leading technical abilities that enable you to significantly improve product quality. You should have a combination of:

- Solid in-depth knowledge of Quality Assurance Concepts
- Excellent solid understanding of the operating system software, as well as knowledge of object-oriented design principles.
- Understanding of 802.11 standards
- Total 5+ years of experience in wireless testing in BT / Zigbee Technologies

You will spend efforts studying and designing the new methodologies and techniques to facilitate testing

#### Basic qualifications

Experience in manual testing and automated testing with Bluetooth / Zigbee Technology

. Hands-on experience in Bluetooth profiles and features (A2DP, AVRCP, MAP, HID and HFP) testing

5+ year of experience working as a Quality Assurance Engineer

Bachelor's degree in Computer Science, Computer Engineering or similar technical field.

2+ years of experience in automation development

- Domain expertise in Bluetooth or Zigbee / MATTER / THREAD technologies.
- Hands-on experience in Bluetooth certification and Zigbee / MATTER / THREAD certification
- Experience writing automation code for (Bluetooth, Zigbee) based systems
- Shows creativity and initiative to improve product coverage and effectiveness
- Knowledge of industry-standard test automation tools and experience developing product test harnesses
- Strong experience in Python, Java, C, and C++
- Experience with open-source tools and resources
- Experience working closely with development and business teams.

- Key job responsibilities

As a Software Quality Assurance Engineer, you will join the team of hands-on, passionate and seasoned SQA professionals developing innovative consumer-centric testing solutions. In this role, you will:

☑ Develop test plans and test cases

☑ Develop Automation test harness and automate tests using internal and open source tools & infrastructure

☑ Find, isolate, document, regress, and track bugs through to a resolution

☑ Interpret and report testing results, and be a vocal proponent for quality in every phase of the development process

☑ Engage with an experienced cross-disciplinary staff to conceive, design, and develop innovative consumer products.

☑ Need to have a hunger to continuously search for better and more efficient test solutions and an instinct for continuous invention and innovation.

☑ Have the opportunity to propose improvements to our existing processes and automated tools to improve the team's speed, quality, and efficiency.

☑ Be responsive, flexible, and able to succeed within an open collaborative peer environment. You will need to be able to work efficiently and effectively in a fun, fast-paced dynamic team environment.

## BASIC QUALIFICATIONS

- 4+ years of quality assurance engineering experience
- Experience in manual testing
- Experience in automation testing

## PREFERRED QUALIFICATIONS

- Experience with at least one automated test framework like Selenium or Appium
- Experience in gathering test requirements to create detailed test plans and defining quality metrics to measure product quality

Our inclusive culture empowers Amazonians to deliver the best results for our customers.
