Job Title: Junior QA Automation Engineer
Company Name: Eskimi

Share f in X

Eskimi is seeking a Junior QA Automation Engineer to join the team based in Bangladesh and work for our global product.

WHAT YOU'LL DO

- Design, implement, and maintainan automated test suite for frontend and backend
- Ensure the implementation of automated tests aligned with best practices and standards
- Create and keep up-to-date detailed, comprehensive, and well-structured test plans and test cases
- Worked closely withthe development team and gave timely feedback on both pre and post-release test results and identified bugs
- Actively share knowledge within the team and stay up to date with the latest news in testing tools and processes

WHAT WILL HELP YOU DO IT

- 1+ years of experience in QA and related areas.
- Experience working with automation tools and frameworks for UI, REST API testing, Cypress or Selenium will be considered as a plus
- Good understanding of at least one OOP language, preferable Python, JS

Experience setting up testing frameworks

- Working experience of Jenkins (or another CI)
- Awareness of performance, scalability, maintainability and security
- Being comfortable with setbacks, and willing to learn from them
- Hunger to learn, grow and level up
- Excellent written, spoken level of English

WHAT'S IN IT FOR YOU

Flexible work arrangements, including hybrid work models in cities with physical offices, and remote work options everywhere else. Where we work in a hybrid model, our team-members can use Work Away Days, allowing them to work fully remotely for up to 1 month per year. We also have flexible working hours, with most Eskimians starting the day at 9 am in their local time zones.

Professional development opportunities through programs like Leaders Assembly for managers, Mentorship programs for growing talents, regular learning sessions, and access to external

Recognition culture with celebrations of achievements. We value everyone's contribution to bring the best talent and new clients to Eskimi, and we offer Bonus systems to encourage it. The Bonusly recognition system also highlights accomplishments, allowing team members to share recognition points redeemable for various gifts and vouchers.

Additional perks such as private health insurance (location-dependent), volunteer days, as well as organized online and in-person get-togethers in office locations to foster meaningful connections among team members.
