Company Name: Programming Hero

Share 🔵 🔵 ❎

Description

🎯 What We Are Looking For

As a Software Quality Assurance Engineer at Programming Hero, He/she will be responsible for developing, implementing, and maintaining a comprehensive quality and reliability testing system for our organization's products and development processes.

📋 Job Description

1 Develop, implement, and maintain quality testing systems for web & applications.

2 Collaborate with the team to define QA parameters.

3 Use bug-tracking tools (e.g., JIRA, Bugzilla, Trello) to document issues.

4 Create test cases, troubleshoot issues, and modify procedures.

5 Automate specific test cases for web & Android applications.

6 Generate detailed reports and work closely with the product manager.

7 Manage user reviews and feedback.

📄 Employment Type & Experience Requirements

1 Full-Time (8 Hours a Day, 5 Days of the Week) [we won't track your time, we only care about your contribution]

2 The first 3 months will be counted as a probation period. (if you can prove yourself in the first month, then we'll not wait 3 months for sure)

🌟 Qualifications

1 At least 2-3 years of working experience in the SQA sector.

2 Core scripting knowledge in Python/ JavaScript/ Java.

5️⃣ Load Test and Performance Test using tools like JMeter.

6️⃣ Proficiency in CI/CD (continuous integration and continuous delivery)

7️⃣ practices and tools such as Jenkins, GitLab/GitHub CI, or a related tool

8️⃣ Knowledge of the SDLC & STLC in an Agile environment, quality assurance, and software testing.
💵 **Salary**:

1️⃣ 40,000 BDT - 60,000 BDT Monthly. [we will value your talent, no worries]

2️⃣ During the probation period, you will only receive your salary; after probation, you will receive other benefits.
