Job Title: SQA Engineer - Mid Level
Company Name: DevsNest LLC

Share (f) (in) (X)

About the job

We're seeking a detail-oriented SQA engineer to ensure our Shopify app's seamless functionality and performance. If you're passionate about quality and thrive on finding and fixing bugs, we'd love to hear from you!

Key Responsibilities:

- Test app features, integrations, and user flows for functionality and performance.
- Identify and document bugs, inconsistencies, and usability issues.
- Conduct regression, performance, and compatibility testing across devices and browsers.
- Collaborate with developers to ensure issues are resolved promptly.
- Validate app compliance with Shopify requirements and security standards.

Requirements:

- Experience in testing web applications (Shopify app experience is a plus).
- Strong knowledge of functional, performance, and usability testing.
- Familiarity with Shopify APIs, webhooks, and e-commerce workflows.
- Excellent communication and documentation skills.
