Job Title: Mobile QA Tester
Company Name: Green Tomato

Share ⓕ ⓘn Ⓧ

The Role

Job Description:

We are seeking a passionate QA Engineer to join our international team. As a QA Engineer, you will be an integral part of our agile development process, participating in sprint planning, grooming, testing, analysis, reports, and sprint retrospective sessions. Your primary mission will be to hunt down bugs and UX flaws to ensure the highest level of quality for our entertainment mobile games!

What will be your role? (Bugs and UX flaws hunter):

Plan the process of testing and prioritize testing activities.

Write comprehensive test cases to ensure thorough testing coverage.

Conduct functional testing to identify bugs, glitches, and usability issues.

Identify problem areas and meticulously document them.

Analyze test results and provide detailed reports to the Product Managers.

Collaborate with Product Managers to discuss potential fixes and improvements.

Track the life cycle of errors from discovery to resolution.

Re-test fixed defects to verify successful resolution.

Maintain and update test documentation to reflect the latest changes and findings.

Team Player:

Work closely with the Product Managers, and developers to ensure alignment on testing goals and priorities.

Stay up-to-date with industry trends and best practices for QA testing in mobile games.

Ideal Profile

Your Profile:

2+ years of experience with testing tools and Agile methodologies in a software development environment.

2+ years of experience in the mobile apps or mobile games industries, with a strong understanding of both Apple and Google Play platforms, with their unique OS and challenges

Proven experience in preparing detailed test cases, executing them methodically, and accurately reporting bugs.

Excellent communication skills, both written and verbal, with the ability to clearly articulate issues and collaborate effectively with cross-functional teams.

Finds excitement in finding bugs in the Apps, like a detective looking for flaws in a case.

Strong analytical skills with a keen eye for detail, particularly in identifying and breaking UX or UI elements.

Versatile, able to juggle multiple projects at once.

Extremely thorough and detail oriented.

What's in it for you:

- By joining us, you will be part of a family made up of about 170 employees and many freelancers from all over the world: our applications are localized in more than 20 languages.

Other Benefits:

- Team Fun Unleashed: Welcome Dinners, Friday Cheers, and Sports Galore

- Your Worth, Your Pay: Salary Range That Respects Your Profile, Experience and Location

- Safety First: Insurance Coverage to all employees once the three-month probationary period has been completed.

Recruitment process:

- If you have been selected amongst other candidates you will receive an email with a booking link for your initial interview.

HR interview: Interview will be conducted by HR - Zee, The meeting will last between 30 mins. - 1 hour and will cover your previous experiences and the reasons why you want to join the company

QA test: we will gauge your skills with an assignment to see if your skills match our company goals. Please note that the test is done with IOS platform and requiring an IOS Device.

Final interview: You will meet the Manager for the final interview. The meeting will last between 30 mins. - 1 hour.
