## Job Title: QA Engineer
### Company Name: BytePitch - Software Labs

Share  **f**  **in**  **X**

## Description

**About us:**

BytePicth lives to unlock the power within. We are on a mission to inspire and enable people and communities to discover, develop, and harness their inner capabilities for meaningful and sustainable growth. We focus on providing the tools and resources that foster personal empowerment and collective progress, building technology that has a long-lasting positive impact.

We envision a world where happy and empowered people transform lives through sustainable technology. Our projects touch on multiple industries, allowing us to navigate between different areas and embrace diverse experiences. Tech-wise, we are neither square nor round - we master several tech stacks - and we might be tech experts, but we're people first and foremost, bringing this human approach to our work. By nurturing the holistic well-being of our people, we enable them to become drivers of positive change through the solutions they create. Our commitment to human and business sustainability ensures that everything that we do is balanced and grounded in responsibility, benefiting both present and future generations.

Curious to know more? Then keep reading to learn what's so special about us:

We are unique: Each of us is one of a kind and here, we find the space and the freedom to be ourselves and express our very own specific needs. We cherish the differences and support people in their uniqueness, unlocking the powers of diversity, equity, and inclusion.

We are conscious: We are mindful of the people and communities around us. We seek to gain full knowledge of the contexts in which we act so we can make informed decisions and smart moves and leave a long-lasting positive impact - unlocking the powers of awareness, accountability, and sustainability.

We look after each other: People come first and we are all responsible for supporting, protecting, and taking care of one another. Respect, empathy, active listening, autonomy, flexibility - these are the cornerstones of our approach. We love people and we prioritize their holistic well-being, unlocking the power of happiness.

We are stronger together: We foster strong, honest, trusting, loyal and long-lasting relationships for funnier, better and more engaged teamwork, unlocking the powers of communication, connection, and collaboration.

performance.

Does this sound like you? Do you think you were born to unlock the power within? Do you see yourself transforming lives through sustainable technology? Then BytePitch is the place for you!

**Job Summary:**

Our QA Engineers are fully hands-on and love breaking things. Their day-to-day consists of solving complex and interesting problems, focusing on automating reliable test batteries and reports. As a QA Engineer at BytePitch, you will create and handle asynchronous and event-driven workflows in an agile environment.

**Responsibilities:**

· Breaking things and finding problems;

· Identifying and designing test scenarios, scripts, or procedures that fit with the concepts of Test Automation and Continuous Delivery;

· Creating resilient automated test suites to exercise Web and Mobile applications;

· Structuring and organizing test frameworks.

Requirements

· 3-5 years of experience in similar functions;

· Exploratory testing and problem-solving skills;

· A very good command of tools and test automation frameworks such as Selenium, Espresso, Cucumber, CXTest, UI Automator, KIF or XCTest;

· Solid experience with design models, e.g. Page Object;

· Proficiency with tools like Git and browser developer tools;

· Skilled in using CI/CD tools such as Jenkins, Travis, or others;

· Experience with AWS and programming languages such as Typescript;

· Containerization using Docker (preferred);

· Ability to focus on client reporting and continuous product improvement through post-implementation analysis;

· Acquainted with agile methodologies such as Scrum, Kanban, and DevOps;

· Motivated to keep learning about test automation;

- Fluent in English.

**Benefits**

**We offer:**

- Two types of contracts are available: Employment & Service (B2B) Agreements;

- Competitive salary according to your experience;

- Additional benefits such as meal allowance, health insurance, and extra days off (depending on the type of contract/location);

- Fully remote work;

- Flexibility to help you balance the personal and professional aspects of your life;

- An inclusive culture where you can be yourself and thrive professionally;

- A supportive environment for your overall well-being;

- A budget for training;

- A personalized development plan based on our career paths;

- Opportunities to travel according to the project/client needs;

- Face-to-face company events per year to connect with colleagues and strengthen company culture.

At BytePitch, we unlock the power of diversity, equity and inclusion by fostering a diverse work environment - we deeply believe that teams with different perspectives and experiences are stronger. We encourage women, people of colour, LGBTQIA+ individuals, people with disabilities and/or neurodevelopmental conditions, members of ethnic minorities, foreign-born residents, older members of society, and others from minority groups and diverse backgrounds to apply. We actively promote equality of opportunity for all with the right mix of talent, skills and potential, therefore decisions related to hiring, compensating, training, evaluating performance, or terminating are made fairly and we do not discriminate based on race, colour, national origin, sex, gender, religion or belief, sexual orientation, age, marriage/civil partnership, pregnancy/maternity or disability status. We strive to create an inclusive environment that makes every employee and candidate feel welcome, and all employees and contractors of BytePitch are responsible for maintaining a work culture free from discrimination and harassment by treating others with kindness and respect. Please let us know if you need some adjustments in your recruitment process, and we will do our best to accommodate your needs.
