Job Title: Senior QA & Test Automation Engineer | Ruby on Rails (Remote)
Company Name: iubenda

Share 𝐟 𝐢𝐧 𝕏

iubenda is a legal-tech scale-up founded in 2011, now trusted by over 110K clients in the EU, the US, and 100+ more Countries. We are leaders in our industry and operate on a global scale developing and releasing innovative tech solutions.

Our mission is to provide our clients with everything their business needs - to be compliant with legal, local, and regional requirements; so that they can focus on their core product. Recently, we have undertaken a new thrilling adventure, joining forces with Team. blue (a worldwide leader in digital enablement). If you're excited to work at a company in a scaling-up environment providing SaaS solutions to ~1M users - and equally important - to join a team of friendly people with a culture based on continuous learning, transparency, and collaboration. Then, you're looking at the right place!

Your mission

We're looking for an enthusiastic Senior QA & Test Automation Engineer to join our team. You will be fully responsible for building automated test suites for existing and new software, extending our test infrastructures, and enhancing our continuous integration environment. You will work closely with the development team and product designers to identify user experience acceptance criteria.

Requirements

- At least 5 years of experience as a Test Automation engineer, or in a similar role;
- Professional experience with at least one OOP language (preferably Ruby, but also Python, C++, etc. will be fine);
- Experience with scripting languages such as Python, Ruby, or JavaScript.
- Experience in testing backend and frontend web applications;
- Strong understanding of algorithms (to allow adaptability with various languages);
- Good communication skills.

Added values

- Experience with test automation tools like Capybara or Selenium;
- Strong experience using Git and Github;

Location

At iubenda we believe in full-remote. Accordingly, you will be completely free and entitled to work from wherever you prefer in the world. At the same time in case you prefer to work from an office, at your disposal you have our Italian (Milan and Bologna) and German (Berlin and Hamburg) offices, to allow you to follow a hybrid work model.

Benefits

REMOTE WORK - You can work 100% remotely or if you prefer, from one of our beautiful offices in Italy (Bologna and Milan), and Germany (Hamburg). We are used and fully structured to onboard people who prefer to work full-time remotely.
TRAVEL ALLOWANCE TO VISIT A COLLEAGUE - We'll provide you with a budget so that you can spend time with your teammates based on the other side of the world;
COMPANY RETREATS AND COWORKING GATHERINGS - Once a year, we get together in amazing destinations to work, bond, and enjoy team-building activities. We offer fully paid week-long gatherings to places like Venice, Sicily, and the Dolomites.
LEARNING BUDGET - We'll sponsor your professional growth by providing a budget for certifications, events, courses, and books;
ENGLISH CLASSES - We offer online English classes weekly, within working hours, and on several different levels. We know there's always room to improve;
WORK EQUIPMENT - We'll provide an equipment allowance so that you can perform at your best;
BRIGHT & COLLABORATIVE WORK ENVIRONMENT - You will be part of a multicultural team of talented and experienced colleagues. Along with that, you will find a team spirit, which you would rarely find elsewhere!

Please send your CV in English.
