Job Title: Software Quality Assurance Engineer

Company Name: Sheba Technologies Limited

Share **f** **in** **X**

Sheba Technologies Limited is hiring the Software Quality Assurance Engineer

Major Responsibilities:

- Develop detailed test plans and test strategies based on project requirements and specifications.
- Define the scope, approach, resources, and schedule for testing activities.
- Analyze functional and non-functional requirements for testability, completeness, and clarity.
- Participate in requirements reviews and provide feedback to improve quality.
- Design, develop, and execute test cases, test scripts, and test scenarios for various testing levels (unit, integration, system, regression, and acceptance testing).
- Ensure comprehensive test coverage and adherence to test design principles.
- Develop, maintain, and execute automated test scripts using appropriate tools and frameworks.
- Integrate automated tests into the continuous integration/continuous deployment (CI/CD) pipeline.
- Identify, document, and track software defects and inconsistencies.
- Work closely with development teams to reproduce issues, provide detailed bug reports, and verify fixes.
- Ensure that testing processes comply with industry standards, company policies, and regulatory requirements.
- Contribute to the development and enforcement of quality assurance policies and procedures.

Qualifications, Experience & Skills Required:

- **Education:** Bachelor's degree in IT, computer science, software development, or related fields.
- **Experience:** 5 to 8 years of job experience in the SQA team.
- **Skills:** Oracle, JavaScript, and SQA Web Services.

Compensation and Benefits:

- **Salary:** Negotiable.
- Other benefits as per company policy.

Job Location:

Interested candidates with experience can send their updated CV to hr@shebanet.net by mentioning the subject in the format **"Software Quality Assurance Engineer"** by **07-Jan-25**.
